Wilson does not directly import chemicals (either as substances or preparations of substances) to the EU/EEA. Wilson products and packaging are exclusively defined as articles as defined by REACH Article 3.3 and the European Chemicals Agency (ECHA) guidance material. Given those conditions our Wilson products are exempt from REACH pre-registration and later registration activities as substances or substances in preparations.

The candidate list of Substances of Very High Concern (SVHC) that are candidates for authorisation was released in December 16, 2013 as updated on ECHA website (http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp). Wilson certifies that to the best of our knowledge the above-listed Wilson product and packaging contain no Substances of Very High Concern (SVHC) above the REACH notification threshold level for articles (0.1% weight by weight).
